

Our Indiana 'Do Not Call' list has been a Godsend for our family! Working conditions require me to sleep during the time when most telemarketers call. I work hard and make a very substantial income. However, it is necessary for me to keep the 'ringer' on for family emergencies since one of our sons is autistic and mentally retarded.

Allowing some entity that has had an alleged business 'relationship' with me in the last 18 months to call, wake me up, ruin my sleep and reduce my productivity all in the name of 'commercial (read selling me something I probably don't want) speech' irritates me beyond belief. Even more beyond belief is that this 'entity' doesn't have to honor my personal request to 'DO NOT TO CALL'!!!

I'm sure FCC Commissioners wouldn't appreciate THEIR personal time at 2AM being usurped by such inane nonsense.

Since President Bush and I believe in government at the local level, the FCC should respect our Indiana law.

Sincerely,

G. Bailey
